The New York Bulletin, of Tuesday, was up to 11s] in New York at noon; brokens here were offering 115 to 115‡. nothing doing tut a sale of \$1000 Nicot- pork particularly, which was very son paying acris at 23. Rates remain strong, with fittle offere, the squerzing son paving scrip at 23. Rates remain unchanged, but brokers report a rather butter inquiry for tax-paying series. The following from the New York Butletin concludes pleasantly; "We learn from syndicate bankers that their settlements with the treasury, about maturing, will in no way disturb the gold or gold loan market; that little, if any, gold will be used. The fact that cash gold commanded higher rates to-day than Saturday for use, was construed in some quar-ters as evidence that gold had been taken by the syndicate out of the marlot and put into the treasury. We have ad intional reports from mercantile houses that business this season is coniderably a read of any season since the patric of 1875, and that, altogether, extallons have been more than realized. From every prominent city in the country, even including Boston, the center of the manufacturing section, the reports are cheering; from the west and so with the accounts are that business is excellent. People here are beginning to ask themselves if they have not been misled by the cronkers."

Later on the New York telegram announced "cotton held higher." This was regarded as a response to the national crop statement, and awoke an increased inquiry, resulting in an advance o 13je, at which the market closed stiff' The principal oper fors were exporters; the market was above the general run of spinners' limits. The New York Bul clin, of Tuesday, reported a strong and advancing market for spots, holder showing great confidence. Contracts. especially for October, gave strength and an upward turn to prices. "The foreign a views were credited with at fording the main stimulus, aided by less 'shour-ging weather reports from sor re sections, firmer markets at the "Jouth, a moderate supply of cotton immediately available to mest speculative wante, and a supposed more liberal demand to be developed on both home and foreign constamplive wants " The fullowing were the closing Memphis ofsicial quotatrops:

We copy the following from the

weekly review of the cotton market in the New York Bulletin, October 12th Operators, who, as we noted fast week parke', have bad their confidence still further trengthened, and many seem to think the lowest rates have been Dependence is placed upon a good home demand, and a steady call from abroad, the latter theory strength-ened by a brighter look of affairs telegraphed from Manchester, and a slight viving indication of the Ind a goods trade. Exporters certainly have been making an outlet for a considerable amount of cotton bought either through omeson with spinners, shown much restar caption since the cost increased While buyers willing to , ay full market rates have experienced no real difficulty in obtaining such supplies as they reuired, the off-rings have at no time seen free or liberal on spot, the stock keeping within comparatively easily livery there has been a large business and a prefty steady upward turn on values until toward the close, when some irregularity was shown. The strong and rather "uppish" tone at Liverpool gave the first start, and indeed may e considered the main base of improvement throughout, but supp ring fluences have been found in the larger usiness and increased cost on spots, and less brilliant weather reports from the south, and all coupled with a strong manipulative movement to force the ad since to the fullest possible limit. A aree number of contracts have been covered during the work, but brokers report very few purchases for investment, d there was also said to be an absence of orders from the south-either to buy or cover. Tols and next month have ruled much the strongest on all operaions, partly through the workings of a sort of small compination which, it is

We understand that Mr. Wm D. Cabeell a gentleman of wide reputation as the Founder and Principal of Norwood High School, has engaged the services in the work of instruction of F. Key Mende, Thomas A. Seddon, and H. E. Carter, all teachers of experience, and distinguished for special attainment in their respective departments. Norwood School is distinctly preparatory to the University, and we recognize with pieasure the success of the school, as evinced by the high standing and rapid progress of many of Mr. Cabell's papils, who have passed from his hands into ours. With all confidence, therefore, we recommend the school conducted by Mr. Cabell to those who wish to have their sons thoroughly trained for the University, or for any sphere of higher culture.
